## Job Opportunities

# Journeyman Electrician, Dexter-Russell, Southbridge, MA

**Department:** Maintenance

**Schedule:** Monday – Friday, 7am – 3:30pm,  
overtime as necessary

**Purpose:** To maintain, repair, and build electrical  
based equipment

### Essential Job

[Dexter-Russell](#) is looking for a Journeyman Electrician. The job involves electrical industrial machine troubleshooting, machine panel wiring with circuit design, and providing the support services necessary to maintain and upgrade the plant electrical system as necessary.

### General Description

This employee will work as a member of the Maintenance team. Employee will work with other electricians and, at times, alone. This person should have technical troubleshooting experience with computer controlled manufacturing equipment as well as industrial electrical knowledge. Employee's daily duties will come from work orders issued and by verbal instructions from a supervisor. Employee will be required to observe all safety policies, and perform all work in a neat and workman-like way in keeping with OSHA and NEC State law.

During a normal workday, employee may be moved several times from job to job as priorities change.

### Minimum Requirements

- Current Massachusetts license (MA Journeyman Electrician)
- 2 plus years experience
- Work from schematics
- Knowledgeable and proficient with PLC (Programmable Logic Controls), VSD (Variable Speed Drives), CNC (Computer Numerical Control), along with solid computer skills.

Dexter-Russell is an equal opportunity employer. Dexter-Russell conducts drug screens and background checks on applicants who accept employment offers.

Job Type: Full-time
