

Job Opportunities

Procurement Specialist, Vibram Corp., North Brookfield, MA

[Vibram Corporation](#) is looking for its future leaders...are you one of them?

We are looking for a Procurement Specialist, with a minimum of an Engineering or Chemist Degree and 10 years purchasing experience, preferably dealing with polymers, thermoplastics, chemicals, and adhesives. The candidate must have a strong financial aptitude and strong negotiation skills working with global vendors.

Responsibilities will include managing the procurement function of the company, including specific focus on sourcing and supplier development and monitoring suppliers performance (cost, delivery and quality); establishment of procedures and practices for purchasing; commercial negotiation and selection with raw materials vendors; inventory management; development and management of risk mitigation plans; active pursuit of cost reduction opportunities; and other similar duties to ensure the procurement of raw materials. In addition, experience in logistics, inventory control, lean manufacturing, and just-in-time manufacturing is required. Knowledge of imports and custom declarations preferred.
